Introduction

As an IT Solutions Consultant, we help organisations future-proof their systems, reduce risk, and unlock their full potential. Our role is to bridge the gap between technology and business, ensuring that your IT not only supports day-to-day operations but also drives long-term growth.

Whether you need strategic guidance, secure cloud migration, or ongoing technical support, we deliver solutions that are tailored to your business, not one-size-fits-all. With a focus on reliability, security, and scalability, we make sure your technology works harder for you, so you can focus on what matters most: running your business.

Our Services

At ElmeTech, we believe technology should be an enabler, not a burden. As a sole proprietorship consultancy, we provide reliable IT support, strategic guidance, and tailored solutions that help your business run smoothly and securely.

IT Support, Email & Device Management

We keep your laptops, tablets, and phones running smoothly and secure, so your team can work without interruptions and you can stop worrying about IT.

Set Up Email & Devices Properly

We ensure every email and device is secure, synced, and ready to use from day one.

Support Remote & Hybrid Teams

Working from home? No problem. We make sure remote devices stay secure and connected.

Fix Problems Before They Disrupt You

We protect your team from viruses, scams, and security threats.

Keep Everything Updated

No more chasing updates or dealing with outdated apps, we handle it for you.

Microsoft 365 Management

End-to-end Microsoft 365 management to get the most from your tools while keeping your data secure and compliant. From setup and onboarding to optimisation, we handle it all.

Exchange, Teams, SharePoint & OneDrive

Setup, configuration, and ongoing assistance to keep your business connected.

User Onboarding & License Management

Smooth account creation and license handling for efficiency and cost control.

Data Security & Compliance

Oversight to ensure safe data handling and adherence to regulations.

Continuous Optimisation

Regular improvements to boost collaboration and productivity across your teams.

Advanced Security & Management

Stay protected with continuous cybersecurity monitoring and threat detection. We safeguard your systems, manage updates, and provide clear security guidance.

Threat Detection & Real-Time Monitoring

Identify and respond to risks before they become problems.

Firewall Configuration & Network Protection

Defend your infrastructure against attacks and breaches

Patch & Update Management

Keep systems up to date and secure without disrupting operations.

Regular Security Reviews

Actionable insights and recommendations to strengthen your security posture.

Network Optimisation

Fast, reliable, and secure networks that keep your business connected. From setup and optimisation to ongoing monitoring and support, we've got you covered.

Wi-Fi & LAN Setup

Build strong, stable networks tailored to your space and needs.

Performance Optimisation & Troubleshooting

Quickly resolve bottlenecks and improve speed.

Secure Connectivity

Safe access for offices, remote teams, and devices.

Ongoing Monitoring & Support

Proactive care to prevent downtime and keep you connected.

Strategic IT Projects & Implementations

Seamless IT project delivery, from system upgrades to platform integrations. We provide full support and expert guidance to align IT with your business goals.

System Rollouts, Upgrades & Migrations

Minimise disruption with expert planning and execution.

Application & Platform Integrations

Seamless connections between tools to improve efficiency.

End-to-end Project Support

Guidance through every stage, from design to go-live.

IT Advisory Services

Ensure technology decisions align with your business goals.

Website Management

Keep your website fast, secure, and working beautifully, without lifting a finger. We handle the technical side, so your online presence stays professional, protected, and ready for growth.

Ongoing Maintenance & Updates

We keep everything running smoothly with regular plugin, software, and design updates.

Site Security & Protection

We monitor your site 24/7 for malware, threats, and suspicious activity and stop problems before they escalate.

Speed & Performance Optimisation

We make sure your site loads fast and works flawlessly across all devices.

Advanced Security for Sensitive Sites

Need extra protection? We provide SSL certificates, secure payment systems, and help you stay compliant with data regulations.

Procurement Management

Simplifying technology purchasing to get the best solutions at the best value. We source, coordinate, and deploy devices tailored to your needs..

Tech & Business Device Sourcing

From laptops to networking equipment, we find the tools that fit your business needs and budget.

Vendor and Supplier Coordination

We handle the communication, negotiations, and logistics with trusted suppliers, saving you time and stress.

Quality and Cost-effectiveness

Every purchase is assessed for reliability, performance, and value, ensuring you get the most out of your investment.

Deployment and Setup

We don't just deliver your devices, we configure, install, and optimise them so they're ready to work from day one.

Proactive IT Health Reviews

Regular IT reviews to ensure your systems are secure, efficient, and future-ready. We provide performance insights, compliance checks, and strategic recommendations.

Quarterly Performance Reports

Clear insights into how your systems are running, highlighting opportunities to improve efficiency and reduce costs.

Security & Compliance Checks

Regular assessments to identify risks, ensure regulatory compliance, and strengthen your defences against threats.

Strategic Recommendations

Practical, business focused advice that turns technical findings into actionable steps for growth.

Technology Roadmaps

Future-focused planning aligned with your business goals, so you can invest wisely and scale with confidence.

Custom IT Solutions

We know one size doesn't fit all. If your business requires something unique, ElmeTech designs a tailored IT package that fits perfectly, built around your needs, goals, and operations.

Flexible Service Hours

Support when you need it, including out-of-hours assistance.

Bespoke Microsoft 365 Deployments

Custom setups to match your workflows and team structure.

Specialised Integrations & Security Models

Solutions designed for your systems, processes, and compliance requirements.

Dedicated Support

Hands-on assistance tailored to your operations and priorities.

Why Work With Us

At ElmeTech, we go beyond fixing problems, we provide proactive, tailored IT solutions that keep your systems secure, efficient, and aligned with your goals. With clear guidance, end-to-end support, and trusted partnerships, we help you reduce risk, get the best value from your technology, and focus on growing your business.

Ready to simplify your IT?

Whether you need standard support or a custom solution, we provide expert guidance and hands-on help to keep your business secure, efficient, and future-ready.
